FRUIT LOGISTICA

**Innovation Award**  
2019

# Donghong

## The first highly shelf-stable red kiwifruit

### Genetic Origin

Improvement of existing variety.

### Characteristics of plant

- ✓ Winter chilling: low, less than Jintao.
- ✓ Vigour: medium-high, individual fruits on 80% of plants.
- ✓ Bud break: 10-15 days earlier than Hayward.
- ✓ Flowering time: 15 days earlier than Hayward, duration of flowering 6-7 days.
- ✓ Crop load: high.
- ✓ Harvest time: very early, one month before hayward.

### Characteristics of fruit

- ✓ Colour of flesh: yellow gold exocarp, bright red endocarp.
- ✓ Appearance: cylindrical shape, thick skin, smooth/hairless.
- ✓ Size: medium (80-90 g).
- ✓ Organoleptic characteristics: high dry matter content, high sugar content, sweet and intense flavour.
- ✓ Nutraceutical properties: high vitamin C content (120-150 mg/100g).
- ✓ Storage shelf life: excellent shelf life, over 5 months in the refrigerator.
