

Z5Z6

The best green kiwi to eat

Genetic origin

Improvement of a pre-existing variety.

The plant

- ✓ High vigour, thick leaves, high yield.
- ✓ Budding: The same as Hayward.
- ✓ Flowering: The same as Hayward.
- ✓ Harvest time: The same as Hayward.
- ✓ Adaptability: More resistant than Hayward to low temperatures, humidity and the main Actinidia pathogens.

The fruit

- ✓ Colour of the flesh: dark green.
- ✓ Outer look: Elliptical, slightly irregular shape.
- ✓ Size: Large (medium weight: 100g).
- ✓ Sensorial characteristics: Very high gustatory qualities, sweet and juicy flesh.
- ✓ Nutraceutical properties: High content of Vitamin C (on average higher compared to Hayward).
- ✓ Shelf life: Very good.
